HAND WARN METAL DETECTOR

LATEST TECHNOLOGY

The Frisker PRO is a highly sensitive unit that, when used properly, can readily detect both ferrous objects such as guns, knives, ice picks, razors, etc.

The silent pulsating feature of the Frisker PRO alert only the Officer of the detected metal. In most instances the suspect will be unaware you are using a metal detector.

ROAD STAR SOLAR POWERED ROAD SAFETY PRODUCTS

SOLAR FLASHER BASIS PE/PF-800

Introducing new rang of solar energy/solar powerd products to bring safety on the road to save the lives of human being as well as save electricity.

The super bright flasing LED's help vehicle drivers to gague the distance of approach well in time and averts a disaster in bad condition of weather.

These products draw anerge from the sunlight and are absolutely maintenance free.

These blinkers/fleshers/delineators are installed at critical, accident prone spots like blind truns, flyover, crossing, junction, cave/tunnel, speed breaker etc.

Solar dalineators -work in to ways-active and passive booth-active while flashing and also it has Retro reflective coloured bands of sheeting which Reflects when the motorits beam light fall on it.
